

Ichabod Crane High School Freshmen Mentorship Program

The Ichabod Crane High School Freshmen Mentorship Program was created by an 11th grade student who wanted to start a program for 8th graders transitioning to the high school. Upperclassmen will be paired with incoming ninth graders to assist with social anxieties, academics and just be a familiar face for them to recognize on their first day of school.

Some of the benefits of this program:

- It can be used as an early intervention for students and can set the tone for academic success and personal/social development throughout their high school career.
- Can be beneficial for both the mentor and mentee as it provides extra support for the mentee and can be a learning experience for the mentor/mentee.

Activities/topics covered:

- Meet and Greet your “mentee”
- Intro to afterschool events and clubs
- Tips for success
- Academics

Meeting Times:

- Freshmen Welcome
- Before Homeroom
- During study halls
- After-School (if applicable)
